TTY 410-767-7025

# HARD WORKING FAMILIES

*Maryland helps hard working families and individuals increase the spending power of their household budget and build a better life.*

## Medical Coverage

Did you know hard-working families may be eligible for health coverage for themselves and their children?

If your entire family does not qualify, depending on family income, your children may be eligible for health insurance through the Maryland Children's Health Program (MCHP).

For more information on the MCHP Program call **1-800-456-8900** or call 1-800-332-6347 (TTY: **1-800-925-4434**) or visit our website at [www.dhr.state.md.us](http://www.dhr.state.md.us)

### EXAMPLE:

- Children through age 18 and up to 19 may receive coverage
- Children do not have to be on welfare to get MCHP
- Both parents may be employed and live in the home
- Parents may own a car, a home, and a savings account
- Parents can have health insurance
